

O-RING INSTALLATION SYSTEMS

CDS Manufacturing designs and builds o-ring installation systems. Fully automatic and semi-automatic machines designed and built specifically for your application.

Fully automatic o-ring assembly machines available with automatic parts feeders, component positioning, o-ring insertion, o-ring assembly inspection, good / reject part gating, completed part counting, and more.

Semi-automatic o-ring installation fixtures also available. Operator loaded components, magazine fed o-ring, palm button operation, and more designed and built specifically for your o-ring assembly application.

Contact us today for a free consultation with one of our automation experts for more details on our O-Ring Installation Systems.
